Seven Thousand March in Parade

OPENING OF FOURTH LIBERTY LOAN CAMPAIGN MARKED HERE BY LARGE PATRIOTIC PAGEANT

It is estimated by observers of the Fourth Liberty Bond parade which took place in this city yesterday evening that fully seven thousand men and women marched through the streets of the city and that ten thousand men, women and children stood on the sidewalks to witness the great spectacular pageant of the thousands who are pledged to stand by the government in the war and help in every way possible to bring it to a victorious conclusion at the earliest possible moment.

ENTHUSIASTIC DEMONSTRATION.

Never in Richmond was there a more enthusiastic demonstration. The first division was made up of the business men of the city and this was followed by the oil refinery operatives to the number of several thousands and then came the Santa Fe railroad men and the employes of the other large manufacturing interests. Each division was headed by a band, the place of honor in the procession being accorded to the Marine band of sixty-four pieces from the Mare Island Navy Yard.

The Standard Oil band headed the workers from the refinery and the Municipal Band headed the contingent from the railroad shops and yards, while the Moose Drum Corps headed still another division of the marchers.

PARADE MOVED PROMPTLY.

Charles F. Donnelly, as grand marshal of the occasion managed the great throng of patriots in an admirable manner and there was no confusion in starting on the parade, which left First and Macdonald avenue almost promptly on the minute advertised—7:15 o'clock, marching along Macdonald avenue to Sixteenth street, thence countermarching to Fifth street, thence to Nevin avenue and to the band stand at Tenth and Nevin, where several speakers and the Marine Band entertained the vast throng of people, covering an entire block, until a late hour.

OPENING OF BOND DRIVE.

The event marked the opening of the Fourth Liberty Bond campaign which took place in this city this morning and which continues until the 24th of October. It was a glorious sight to see the entire population of the city on its main thoroughfare, with flags flying and stirring national airs being played by the bands, with marching thousands reaching from one end of the street to the other and those who heard the music and cheers and saw the marching thousands will not soon forget the scene nor its import.

STANDARD'S SPLENDID SHOWING.

As is usual the Standard Oil employes furnished the major portion of the men and women in the parade and their head officials were present to participate and see that everything went off in an efficient way, which is the watchword of the great industry here and elsewhere. The Santa Fe made a splendid showing with their men and women and their splendid banner and service flags.

MANY TALENTED SPEAKERS.

Chairman Charles J. Crary, of the Liberty Loan campaign, presided over the meeting at the band stand and introduced the speakers, among whom were Mrs. Katherine Smith, Mayor Lane, Edward M. Raney, secretary to Mayor Rolph of San Francisco, Cecil Moore, of the High School four-minute corps of speakers, and several others.

MARINE BAND ENTERTAINED.

While in this city the members of the Marine Band were the guests of the Echo Club at their rooms in the Pulse building at Sixth street and Macdonald avenue. The boys of that organization entertained the bandmen at luncheon and saw they were furnished with diversions of various character during the time they spent in the city. After the speaking they were entertained with a dance and the music was supplied by Miss Gloria Osborn, Hazel Duncan, Jewel O'Rourke and Jack Crowe.

JOY RIDERS GET HARD JOLT FROM GOVERNMENT

Asking the co-operation of the members of the Oil Industry and the public at large in the movement to conserve man-power, D. M. Folsom, Director of the Pacific Coast Section of the Oil Division of the Fuel Administration, has announced that all sellers and distributors of Gasoline and Engine Distillate, without exception, have been requested to limit their sales to the hours between 6 a. m. and 6 p. m. The appeal is being made in all States of the Pacific Coast Section, including California, Oregon, Washington, Arizona, Nevada, Utah and Idaho and the Hawaiian Islands. The limit of the hours of service will work no inconvenience on the Gasoline and Engine Distillate consuming public, requiring only a little forethought in order to secure their requirements.

With the public co-operating with the Oil Companies and making their purchases only during the hours suggested by Mr. Folsom, it is pointed out that a large reduction can be made in the number of employees needed in the distribution of Gasoline and Engine Distillate throughout the Pacific Coast States and these men released are made available for national service.

CHARLES PAUFOE IS FOUND DEAD IN BED

This morning at his home at 342 Seventh street, Charles Paufoe was found dead in bed. It is supposed death was due to heart failure. Deceased was a plasterer by trade, a native of Sweden, and aged about eighty-two years. He has no relatives in this country. The funeral will be held Monday at 2 p. m from the Curry undertaking parlors.

GERMAN HORDE IS SCATTERED BY AMERICAN CANNON FIRE

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Sept. 28, 9 a. m.—With their backs to the outer edge of the Brunhilde line, the Germans today were fighting desperately in an endeavor to bring the American advance to a definite halt. The Germans were increasing the volume of their fire and indicating anew their determination to resist to the utmost.

The Americans are using their artillery freely to break up the enemy positions.

The Germans are depending upon machine gun fire at every advanced point in their effort to check the Americans.

The line fought for runs through the northern Argonne Woods and eastward, along a line paralleling the Epinonville—Montfaucon road to a point near Ivoiry, and thence northeasterly.

The Germans are massed in the Clerges woods and in the Ement woods.

CALFEE BOYS IN SERVICE FOR UNCLE SAM

The last heard from Ross Calfee by his parents of this city, Rev. and Mrs. D. W. Calfee, was on the firing line in the Metz offensive. As "no news is good news," is is presumed that he is all right and having the time of his life. But his parents are anxious about him and will not draw a long breath until they hear that he is back in a rest camp after his arduous work in the front line trenches.

Sergeant T. N. Calfee is still at Camp Holobird, Maryland. He is mobilizing and sending across to France large numbers of motor trucks. His unit is at Camp Fremont and the presumption is that they will go to Siberia in a short time. Sergeant Calfee will probably join his men before they sail for the Far East.

Burke Calfee is at Camp Kearney, where he has been engaged in drilling men since going to that cantonment some weeks ago. He has had four years experience in this line of work and is considered of marked ability in making real soldiers of the rookies constantly arriving at the camp. Burke has taken the examination to go into an officers' training camp and passed with good rating. He is under orders now to report at Camp Pike, Little Rock, Arkansas, where he will begin trainings for a commission.

George Calfee and his wife departed for Siberia from Victoria on the 24th of the present month. They are in the Y. M. C. A. service and will go over to entertain the boys in the United States Army who are doing duty in the oriental countries.

DRAFT BOARD IS TAKING HALF DAY

The draft board is taking a half day off today. Saturday afternoon is always taken off by federal employes and the draft boards come under this title. They may work all day Sundays and half of every night, but they will not work on Saturday afternoon.

That is why many people who called at draft headquraters this afternoon to have their questionnaires filled out were disappointed. The place was closed up as tight as the proverbial drum.

BULGARIA IS OUT OF WAR ACCORDING TO REPORTS

WASHINGTON, Sept. 28. — Bulgaria is out of the war, in the opinion of Stephan Panateroff, Bulgarian minister here, who believes that his country definitely is determined to abandon its alliance with Germany and Austria, and, if the entente allies refuse to listen to peace overtures, will appeal to the United States to use its good offices.

Mr. Panaretoff said his country would be willing to let settlement of the issues rest in the hands of such a country as the United States, "according to justice as announced by President Wilson."

LONDON, Sept. 28.—Great Britain has replied to the Bulgarian request for an armistice. The reply, it is stated, is fully covered by the answer given the Bulgarian representatives by the commander of the allied army on the Macedonian front. By this reply it is perfectly well defined that no military operations be suspended.

ITALIAN COLONY BAND WILL GIVE DANCE TONIGHT

The Italian Colony Band will give a delightful dance this evening at the Point Richmond Opera House. There will be excellent music, a courteous and painstaking floor committee and other features to make the occasion one to be remembered with pleasure.

The dance is given for the benefit of the band.

SURVEY SHOWS HOUSING MUST BE PROVIDED IN RICHMOND

The suggestion has been made to the local United States Committee on housing of workers in factories that some of the old buildings that were listed some time ago for condemnation might be made livable and at request Manager J. A. Waldy of the Placement Bureau has written the City Council presenting suggestion and stating that if desired a special committee will look at these buildings and see what may be done with them.

Among those said to be living in one in Third street occupied by a woman whose husband is at the front. She works in a porcelain plant to support herself. Neighbors say that while the two-room cottage may not be beautiful it is clean and comfortable and well finished inside and that they do not in any way object to it.

It may that several of the old time houses may still serve during the existing congestion and be consigned to the scrap heap afterwards.

The Mobilized Women have already finished their canvass of the city and half their reports are in. All the reports will be submitted to Manager Waldy by tonight, probably, and the first complete report will go on to Washington the first of the week, due to the quick and efficient manner in which these women of Richmond have done the work asked of them by the United States.

This report will show that many houses are needed in this city. The reports that are in developed but ten places for families, consisting of cottages, anartments and rooms with housekeeping privileges. Three of these are not suitable. The other seven have been snapped up from the first to apply of an army of heads of families that wish to live here. The number of families whose heads work in the factories and who need living quarters is large and growing larger. It will be easier to provide single rooms for individual workers.

Every person having quarters for single men or for families is asked to send notice to the Placement Bureau, 914 Macdonald avenue, just as soon as these are available. Supplemental reports will be made to the Government each week.

Just as soon as the first report has gone to Washington a strong committee will be appointed to ask the Government to build houses here. It is thought there is a chance to get some erected from the funds on hand for that purpose, as the great need of them will be made apparent.

GIRL SHOW IS PROMISED AT RICHMOND

Ned Foster's "Sweethearts," a galaxy of the prettiest girls in vaudeville, late from continued successes at the San Francisco Hippodrome, will appear as the headliner in the monster vaudeville show at the Richmond Theater tomorrow afternoon and evening. This is one of the biggest musical comedy companies ever showing in the city.

The DeLong Sisters, who put on a comedy singing and travesty act, are armed with a repertoire which is sure to please. Allie Hasson, singing comedienne, will appear with some new songs and with good looks, and lots of vivacity has made a hit on many big circuits.

The picture program will include the Pathe Weekly with latest news from the war zone and William Desmond in the story of the Canadian mounted police "Closin' In."

SPANISH INFLUENZA IS MENACE, SAYS U. S SURGEON

Fred M. Neville, agent and master car repairer of the Union Tank Line in this city has posted in his shop the latest government bulletin concerning the symptoms and treatment of Spanish influenza and he has provided the Record-Herald with a copy for publication:

The disease is characterized by sudden onset. People are stricken on the street, while at work, in factories, shipyards, offices, or elsewhere. First there is a chill, then fever with temperature from 101 to 103, headache, backache, reddening and running of the eyes, pains and ache all over the body, and general prostration. Persons so attacked should go to their homes at once, get in bed without delay, and immediately call a physician." Treatment under direction of the physician is simple, but important, consisting principally of rest in bed, fresh air, abundant food, with Dover's powder for the relief of pain. Every case with fever should be regarded as serious, and kept in bed at least until temperature becomes normal.

Convalescence requires careful management to avoid serious complications, such as bronchial pneumonia, which not infrequently may have fatal termination. During the present outbreak in foreign countries the salts of quinine and aspirin have been most generally used during the acute attack, the aspirin apparently with much success in the relief of symptoms.

Infectious Agent—The Bacillus influenza of Pfeiffer: Sources of Infection — The secretions from the nose, throat and respiratory passages of cases of the carriers.

Incubation Period—One to four days; generally two.

Mode of Transmission—By direct contact or indirect contact through the use of handkerchiefs, common towels, cups, mess gear, or other objects contaminated with fresh secretions. Droplet infection play an important part.

Period of Communicability—As long as the person harbors the causative organism in the respiratory tract.

Isolation—Bed isolation of infected individuals recommended during the course of the disease. Screens between beds are to be recommended. Immunization — Vaccines are used with only partial success. Quarantine — None; impracticable. Concurrent Disinfection—The discharges from the mouth, throat, nose and other respiratory passages. Terminal Disinfection—Through cleansing, airing and sunning. The causative organism is shortlived outside the host.

The attendant of the case should wear a gauze mask. During epidemics persons should avoid crowded assemblages, street cars, and the like. Education as regards the danger of promiscuous coughing and spitting. Patients, because of the tendency to the development of broncho-pneumonia, should be treated in well-ventilated, warm rooms.

The present outbreak of influenza may be controlled to more or less extent by intelligent action of the part of the public.

There is no such thing as an effective quarantine in the case of pandemic influenza. But precautionary measures may be taken and should be taken. Thus far we have little information as to susceptibility of children, but it is fair to assume that this type of influenza might spread through a school as easily and rapidly as measles, for example.

WAR PLANES HELP CELEBRATE BOND DAY

Two aeroplanes came down from Mather Field, near Sacramento, this morning and spent several hours visiting the towns about the bay. They called on Richmond and from this city went down to Berkeley and Oakland and afterward visited the big city across the bay.

The boys came down to take in the celebration of the opening of the Liberty Loan campaign and the merry hum of their motors added a warnote to the hundreds of thousands of marchers in the big parades which were held in these cities today.

SECRETARY'S FARM IDEA.

Secretary Franklin D. Lane, of the Department of the Interior, is enthusiastically pushing his project to provide a possible farm for every returned soldier after the war. Secretary Lane estimates that there are more than 250,000,000 acres of reclaimable lands within the boundaries of continental United States which might be made available for his soldier-farm project. Congress recently voted him $200,000 wherewith to make a survey of the land resources and to devise plans for making them ready for prospective tenants. It is the secretary's idea that these lands shall be reclaimed by irrigation works, by swamp land drainage systems and stump-clearing operations and then sold to soldiers at nominal prices and on the long-deferred payment system.

The Lane plan contemplates no more than the preparation of reclamation plans now, to be executed when the war is won and the soldiers begin to return in large numbers. Such a plan will require for its ultimate execution vast sums of money, not yet possible to compute, as well as the labor of thousands of men for a period of many years.

No doubt the scheme, if carried to fruition will be a large factor in meeting the labor and employment problems sure to arise after the war, although it is conceivable that in the event of a great industrial boom it may complicate them. If any considerable number of returning soldiers decide to buy land and settle on it the food and agricultural prospects of the country cannot fail to be largely affected. Whether this will be a beneficial effect or a detriment will depend entirely on the food demand on the United States by its own and other peoples. It is possible that it might result in the event of sharply lessened exports in over-production and its attendant evils.

These possibilities, however, do not condemn Secretary Lane's idea. They simply emphasize the necessity of extreme caution in its execution.

The best answer heard to a sneering remark about women "just loving to wear some sort of natty war service uniform" was made by a major in the National Army, "Why shouldn't a woman be proud of a war service uniform?" he asked. "I have yet to meet the first soldier worth a Continental," he said, "and this includes myself, who is not proud of his uniform and who does not appreciate the glances of approval it calls forth."

35 out of 42 of Our Boys, this year's graduates in dentistry of the University of California, have entered the Army and Navy. When these boys come back, if they do come back—from the fight for freedom—they would have to compete with derelicts and incompetents let in without examination. Not One Chinese In Ten Thousand Has Constipation

except a few drug users, while about 90 per cent of the Americans suffer from this dread complaint. The FONG WAN HERB SPECIALIST gives the following explanation of this phenomenon. "When a Chinese is ill, he immediately consults a Herb Specialist and the cause is removed, but, when an American feels bad, the first thing he does is to take a PHYSIC. This may relieve him temporarily, but repeated doses of such drugs eventually paralyze the bowels. As the bowels then no longer move naturally, physic taking becomes a habit, the weakened bowels drag, and there is a heavy pressure of gas on the rectum. If the poor victim be a man, the physician will usually tell him that his trouble is piles; if a woman, that it is female trouble."

By drinking the Fong Wan harmless Chinese herbs, hundreds of Americans have not only been relieved of their stomach and bowel troubles, but have been made normal again. Their testimonials are on file.

TO ALL PATRIOTIC CITIZENS

The following appeal to patriotism is issued by the Power Administrator appointed by the Railroad Commission of the State of California:—

Conserve Electricity

Patriotism demands that you save electricity for war industries.

Northern and Central California have a **SERIOUS** power shortage because of lack of rain during the past winter and the increased use of electricity by war industries.

These War Industries Must Have Power

There is not enough power for everybody at the present rate of consumption. It is up to you to save. Turn off lights whenever possible and use lower power lamps.

This is one other thing you can do in the great struggle.
